

IDENTIFY CYBER THREATS IN YOUR DATA

Assured Data Protection (Assured) is a global data backup and disaster recovery managed service provider. As Rubrik's largest and most established MSP, Assured operationalizes Rubrik's Zero Trust Security solutions, delivering data security and protection to customers in over 50 countries worldwide.

Assured's managed service solutions, built on Rubrik's Security Cloud, enable organizations to control their entire backup environment ensuring resiliency against data loss, natural disasters and cyber attacks.

Cyber Resiliency as a Service monitors backup data for cyber threat anomalies and enables fast recovery from ransomware and cyber attacks to a clean data point to keep operations running.

MONITOR BACKUPS

Assured automatically monitors backup data for known threats to identify and alert you to security breaches in your environment.

DETECT ANOMALIES

Incorporating Rubrik's use of Machine Learning and AI, Assured's solution discovers suspicious activity to detect early warning signals of attackers in your environment.

ACCELERATE RECOVERY

Recover from ransomware and other cyber attacks, on-premises or in the cloud, from your immutable backups to a last known good state.

ZERO TRUST DATA PROTECTION

Data Available with
Zero Trust Architecture

RANSOMWARE INVESTIGATION

Discover Anomalies
with Machine Learning

SENSITIVE DATA RECOVERY

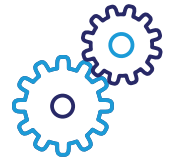

Classify Data and
Assess Exfiltration Risk

INCIDENT CONTAINMENT

Discover Point of
Malware Infection

ORCHESTRATED RECOVERY

Recover Apps & Data
with Guided Workflows

NIST SECURITY STANDARDS

PREPARATION

DETECTION & ANALYSIS

CONTAINMENT ERADICATION
AND RECOVERY

DETECT AND RECOVER FROM CYBER ATTACKS

ENTERPRISE, CLOUD AND SAAS DATA PROTECTION

Cyber-proof your enterprise data with air-gapped, immutable, access-controlled backup.

RUBRIK CLOUD VAULT

Secure and archive your most valuable data with a cloud data vault with the next level of immutability.

RANSOMWARE MONITORING AND INVESTIGATION

Determine the scope of attacks, using high fidelity machine learning to detect deletion, modifications and encryptions.

SENSITIVE DATA MONITORING AND REMEDIATION

Reduce sensitive data exposure and manage exfiltration risk by discovering what types of sensitive data you have, where it lives and who has access to it.

ORCHESTRATED APPLICATION RECOVERY

Recover applications quickly with pre-built workflows and disaster recovery blueprints.

MASS RECOVERY

Restore business operations quickly by recovering apps, files, or users at scale.

MALWARE THREAT CONTAINMENT

Ensure safe and quick data recovery by quarantining data infected with malware.

THREAT MONITORING AND HUNTING

Prevent malware reinfection by analyzing the time-series history of data for indicators of compromise to identify the initial point, scope and time of infection.

FUTURE PROOF FOR CLOUD

Assured's solutions allow you to move to the cloud non-disruptively with cloud-native protection.

PLAN FOR FUTURE GROWTH

Assured offers a Capacity or Consumption model, which allows for a set price or a pay per use option.

FULLY MANAGED SERVICE

Assured provides automated reporting, backup administration, and comprehensive technical support.
