

# Safeguard Student and Faculty Data

Educational organizations, from K-12 to higher education, are increasingly targeted by cyber threats, making robust data protection essential. Cyberattacks, data breaches, and system vulnerabilities jeopardize the safety and integrity of student and faculty data, leading to potential operational disruptions, reputational damage, substantial financial losses, and legal or regulatory consequences.

At Assured Data Protection, we help educational organizations safeguard sensitive data, meet regulatory demands, and recover swiftly from disasters and cyberattacks, without burdening internal IT resources.

## The Pain Points Assured Solves

### Cyberattacks

Cyberattacks lock down systems and expose data. Our solutions mitigate these threats, recovering critical data quickly to keep operations running.

### Data Growth Mismanagement

Unexpected data growth drives costs. Our automated reporting tracks data usage and changes, helping you stay in control and avoid surprises.

### Limited IT Resources

Many educational organizations face limited budgets and staff. We act as an extension of your IT team, ready to take over data recovery in the event of a disaster or cyberattack.

## The Assured Solution

### Immutable Secure Backups

Encrypted, air-gapped backups stop ransomware in its tracks.

### Built-in Anomaly Detection

Detect anomalies, data changes or suspicious behavior in backup environments.

### Managed Backup and Recovery

Our experts are on call 24/7/365 to recover vital data from attacks.

### Flexible Pricing and Delivery

OpEx pricing model with on-premises, cloud and hybrid options.
