ASSURED BACKUP WITH ❖ rubrik

Fully-Managed Immutable Backup

Ensure your critical data is always protected with our Assured Backup with Rubrik solution - offering secure, automated, and scalable backups without the complexity of traditional storage management.

With increasing cyber threats and the constant risk of data breaches, businesses must be prepared to protect their critical information with an effective cyber resiliency strategy, and backup forms a critical part of that approach.

By leveraging industry-leading technology with native immutability, we offer reliable and comprehensive backup solutions tailored to your specific needs, minimizing the risk of data loss and maximizing business continuity.

Our automated backup, monitoring, and reporting eliminates the complexity of data management, providing you with peace of mind with our expert team available 24/7/365.

Secure
Native immutability ensures data security, effectively safeguarding against unauthorized modifications and ransomware.

Efficient
Reduce backup management time by automating backup policies, allowing more time to focus on production tasks.

Scalable
Scale up and down to meet your current and future data protection requirements, with a flexible billing model based on consumption.

Protect and Optimize Your Data

Integrated Solutions
Seamlessly integrate with IT, track performance, support growth, and ensure recovery.

Hardware Included
We provide all hardware, software, and support, tailored to your individual needs.

Flexible Deployment
Supports on-premises and cloud environments for consistent functionality regardless of location.

Automated Reporting
Daily automated reports capture 24-hour activity to provide essential info for audit and compliance.

Secure Data Management Wherever Your Data Resides

Cloud and SaaS:

Virtual:

No SQL:

Physical:

We offer a flexible, consumption-based model to grow with your business, making data protection cost-effective and scalable. Our purpose-built software provides industry-leading monitoring and reporting capabilities to provide actionable insights into your data protection strategy. Our global data centers ensure data sovereignty, meeting your organization's compliance requirements. A dedicated team is always available to recover your data and minimize disruption in the event of a disaster.

Future Proof for Cloud

Our solutions allow you to move to the cloud non-disruptively with cloud-native protection.

Flexible Pricing

We offer a Capacity or Consumption model, which allows for a set price or a pay-per-use option.

Fully-Managed Service

We provide automated reporting, backup administration, and comprehensive technical support.
